

TV18/1021 Schakel

Het is even schakelen
op en over de fiets
was het even niets
om verhalen op te rakelen
die me konden vermakelijken.

*Het is als met de fiets zelf
geen ketting zonder schakel
dan helpt geen orakel
geen vooruitgang gaat vanzelf
er is een drive nodig vanuit jezelf.*

En natuurlijk een aanleiding
niet de kortere ritten
waar je rustig kunt blijven zitten
maar de uitdagende tochten
klimmen, dalen en het verlies van

vochten.

*Het is als met de fiets zelf
geen ketting zonder schakel
dan helpt geen orakel
geen vooruitgang gaat vanzelf
er is een drive nodig vanuit jezelf.*

Zo was dit de week van de reuzen
Leeuwarden met de poppen
maar ik nam andere toppen
de Géants des Ardennes als keuze
schakel naar het grotere werk, mijn leuze.

Giants – Skin & Earth

[Verse 1] Are you getting tired of hanging around here?
Is it bringing you down?
We've been talking about how we get enough here
If we got out of town

[Pre-Chorus] All the city towers over us
And all our problems make us powerless
Let's get somewhere where the both of us come rising up
Come rising up

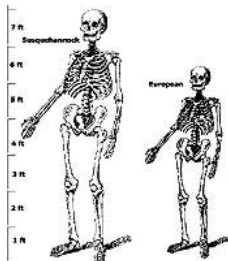

[Chorus] Where we could be giants
Bigger than the walls that hide us
Breaking all the laws of science
Looking at a sea of diamonds
If we could be, we could be giants, oh
If we could be giants, oh

[Verse 2] I don't wanna be the one you can push by
At the back of the room
I would rather ride with you to the big sky
At the heart of the moon

[Pre-Chorus] All the city towers over us
And all our problems make us powerless
Let's get somewhere where the both of us can come rising up

[Chorus] Where we could be giants
Bigger than the walls that hide us
Breaking all the laws of science
Looking at a sea of diamonds
If we could be, we could be giants, oh
If we could be giants, oh
If we could be, if we could be giants, oh, giants
If we could be giants, oh, giants

[Bridge] If we could come up, no one ever would defy us
Top of the world, we'll be sitting at the highest
We could come up, no one ever would defy us
Top of the world, we'll be sitting at the highest

[Breakdown] Where we could be giants (*we could be giants*)
Bigger than the walls that hide us (*bigger than walls that hide us*)
Breaking all the laws of science (*we could be giants*)
Looking at a sea of diamonds (*bigger than walls that hide us*)

[Chorus] If we could be, we could be giants
Bigger than the walls that hide us
Breaking all the laws of science
Looking at a sea of diamonds
If we could be, if we could be giants, oh
If we could be giants, if we could be giants
If we could be, if we could be giants, oh
If we could be giants, if we could be giants
If we could be giants
