

Naderen op lege paden en wegen
altijd en tegelijkertijd
de tegenligger en degene die je
voorbijrijdt.

Alleen, op lege paden en wegen,
kom je tegelijkertijd
met een enkele voorganger
en juist op dat moment
een tegenligger tegen.

The Chance - Blockheads

tell me what would you do
if you could change your life?
would you leave
everything behind?

your friends, your love
your child, your job?
and almost
everything you've got?

thoughts that spin your head around
that hard decisions can't be found
so you've got to take the chance!
or choose your old romance

Ref: who ever thought it would end up someday
who ever thought that you could fade away
you feel alone and think you're chance is gone
but you will see, its not what it seems - NO

all you've ever wanted
was to get this chance
and now
nothing makes a sense!

what would they say?
when will you awake?
you have
lost your confidence

would they leave you all alone?
can you make it on your own?
it has got to take an end!
or whats the other plan?

Ref:

you don't know what to do
a fight inside of you
while you hope to find an answer just in time

don't want to hurt someone
but then they would have won
don't wait for an inspiration or a sign

cause can you tell me
why have the others -
the right to discover?
just do your thing!!! (yeah)
